

Logo watermark specifications

Correct placement

Watermark cannot be placed here due to shortlist icon positioning

Watermark cannot be placed in the middle of the image

Watermark should be placed here with the below position and size

Watermark cannot be placed here due to property status positioning

Correct logo treatment

Watermarked logo style:

- Desaturated (black and white)
- 25% opacity
- 20px height x variable width e.g:

Best results

- Fill colour #FFFFFF (if applicable) *

*Not all branding can contain colour fills, if your logo does not contain a black or white variant, simply desaturate and reduce opacity
